

MERIDIAN 6 WIGAN

Dear Neighbour

We wanted to update you as we undertake further survey work that will involve drilling machinery operating on site. This machinery may appear to be construction related; however, this is being used to take soil samples and test ground conditions only.

The survey works will not result in any permanent changes to the land and do not require planning consent. The works will be carried out ensuring that any holes are backfilled, and the land is reinstated accordingly. As a guide, the survey work is due to commence on **7 June 2021** and is due to last for approximately two weeks on site.

As a general update regarding the planning application, we are currently undertaking further survey work in respect of highways, which has pushed our original programme back. We are however aiming to submit a planning application in June.

We trust that this update is helpful but if you have any queries regarding the current survey works, please do not hesitate to make contact with our communications team at UK Networks via the Meridian 6 website.

GLENBROOK
